ANN LINEHAN SAFETY AWARD

Criteria/Application Packet

The Region VII Head Start Association (R7HSA) established the Ann Linehan Safety Award in honor of Ms. Linehan on the announcement of her 2021 retirement as the Deputy Director of the Office of Head Start, ending her longstanding career with the Administration for Children and Families.

One only has to read Ms. Linehan's letter to grantees dated January 3, 2018, to understand the depth of her concern and passion for providing children a safe, nurturing, and loving environment. The letter attached to this application packet contains a difficult but important message shared with grantees regarding an alarming increase in reported number of child incidents while children were in the care of a Head Start/Early Head Start Program.

The *Ann Linehan Safety Award* builds on the R7HSA *Safe in Hand* Campaign launched in 2019 in response to Ms. Linehan's letter for the purpose of raising awareness and the importance of providing a safe indoor and outdoor classroom setting including transportation services, where provided, for every child handed off by a parent/caregiver to a Head Start/Early Head Start staff member is always the programs highest priority.

2022 marked the first year the Ann Linehan Safety Award was open for applications. The award will continue to be offered annually and awarded at an R7HSA annual event contingent upon receipt of qualifying recipient applications. Past recipients of the Ann Linehan Award are asked to wait a period of 24 months from receipt of the award before submitting a new application for consideration.

Award submissions will be reviewed by an impartial panel of experienced Head Start/Early Head Start professionals with former or current direct field program supervisory/management level experience.

Awardee will receive an air purification unit and cash award from WellAir.

R7HSA Salutes
**ANN
LINEHAN**
for
**40 Years
of Service**

with the Head Start Program.

Actual award may differ from graphic.
